

SWAYAM SRIVASTAV

PROFILE

ECE final-year student (MIT Manipal, 2026) with hands-on experience in AI-driven creative production at Jio Creative Labs and embedded systems at Siemens Mobility. Skilled in Python, prompt engineering, and cross-functional execution. Seeking roles in AI product, tech consulting, or creative technology.

EDUCATION

Bachelor of Technology, Electronics and Communication Engineering
Manipal Institute of Technology | 2022-2026

LEADERSHIP & ACTIVITIES

- Coordinated logistics and on-ground operations for major cultural and technical fests (5,000+ attendees) at MIT Manipal, streamlining cross-team communication and supporting promotional strategies that boosted event participation.
- Served as HR/SMG Head and President of the Manga Anime Club (2023–2025), overseeing recruitment and event planning for a 100+ member community, achieving a 40% rise in member retention while contributing to workshops and intercollegiate events across cultural and technical clubs.

CERTIFICATIONS

- Digital Marketing Analytics in Practice, University of Illinois Urbana-Champaign, Issued Mar 2025
- Marketing in a Digital World, University of Illinois Urbana-Champaign, Issued Mar 2025
- Digital Marketing Analytics in Theory, University of Illinois Urbana-Champaign, Issued Mar 2025

LANGUAGE

English Hindi

WORK EXPERIENCE

AI and Creative Intern

Jio Creative Labs

Jan 2026 – Present

- Produced 100+ AI-generated visual assets per sprint using Midjourney, SDXL, and Adobe Firefly for 5+ commercial campaigns including IPL and FMCG clients, reducing concept turnaround time by ~40%.
- Developed structured prompt engineering frameworks and applied advanced techniques (ControlNet, IP-Adapter, LoRA) to ensure brand-consistent, client-grade outputs across large asset batches.
- Assisted in feature film pre-production by generating AI-assisted storyboards and shot visualisations, and contributed to short film production and post-production editing workflows.

Intern – Siemens Mobility, Kalwa Works

Railway Signalling & Automation

May 2025 – July 2025

- Completed intensive training on advanced railway signalling systems at Siemens Mobility, gaining hands-on exposure to point machines (S700K), Audio Frequency Track Circuits (AFTC), and axle counters in real-world infrastructure.
- Analysed Station Interlocking Plans (SIPs) and mapped AFTC–interlocking integration logic across 3+ live signal corridors, contributing to a validation checklist used by the infrastructure team.
- Documented signal validation findings and contributed to system verification reports reviewed by the site engineering team.

EXPERTISE

- Python
- Prompt Engineering
- Adobe Premiere
- Sales
- AI Film Making
